

List of the type-, shock- and EMP-tested built-in parts

State: february 1st, 2001

Inventory :	1. General	Page :	3
	2. Building construction parts		4
	3. Sanitary		5
	4. Ventilation		7
	5. Elastomeres		12
	6. Electro		14
	7. Emergency generator set		16
	8. Transmission equipment		--
	9. Shelter furnishings		17

All listed build-in parts are complying with the Base protection degree as demanded in the Technical directives concerning the shock resistance of components installed in constructions of the civil protection (TW Schock 1995)

Legend :	BZS = Swiss Federal Office of Civil Defence	N = Dry toilet systems
	D = Fixing elements	OB = Shock-tested for a particular object
	E = EMP-tested	S = Shock-tested
	L = Personnel bunks	SE = Shock- and EMP-tested
	LP = Bunks for private shelters up to 200 places	T = According to the technical requirements
	M = Stackable bunks and mobile toilet installation equipment	TE = According to the technical requirements

1. General	1.1	Fixing elements	4. Ventilation	4.11	Regulating units
	1.2	Wall sleeves		4.12	Chillers
	1.3	Compressors			
2. Building construction p	2.1	Shelter closures	5. Elastomeres	5.1	Door seal profiles
	2.2	Armoured double-doors		5.2	Coupling for flexible hoses
	2.3	Armoured sliding walls		5.3	Flexible hoses and/or bellows
	2.4	Separation walls		5.4	Others
3. Sanitary	3.1	Ground water pumps	6. Electro	6.1	Cable support systems
	3.2	Sewage pumps		6.2	Luminaires
	3.3	Pumps		6.3	Ballasts
	3.4	Inline pumps		6.4	Electro motors
	3.5	Hand-pumps		6.5	Electrical swtichboards and material
	3.6	Control devices for pumps	7. Emergency generator s	7.1	Emergency generator set
	3.7	Booster systems		7.2	Starter systems
	3.8	UV-desinfection equipment		7.3	Batteries
	3.9	Boilers and containers		7.4	Refrigerating devices
	3.10	Kitchen equipment		7.5	Control panels
	3.11	Washing machines and driers		7.6	USV-plants
	3.12	Dry toilet systems		7.7	Storage tanks
	3.13	Systems for the medical service			
	3.14	Fittings			
	3.15	Fixing systems for pipes			
4. Ventilation	4.1	Small ventilation equipment	8. Transmission		
	4.2	Ventilation equipment			
	4.3	Gas filters			
	4.4	Basic filter materials			
	4.5	Valves			
	4.6	Filter			
	4.7	Air handling units			
	4.8	Heat-exchangers			
	4.9	Fans			
	4.10	Gastight shut-off devices			
		9. Shelter furnishing	9.1	Personnel bunks	
			9.2	Bunks for patients	
			9.3	Stackable bunks	
			9.4	Bunks for private shelters	
			9.5	Other bunks	
			9.6	Fire prevention	
			9.7	Furniture
